APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office	JUL 2 2 1988			
Returned to applicant for correction	SEP 1 4 1988			
Corrected application filed	OCT 1 8 1988			
Map filed	8 8 W 4 C 400			
The applicant U.S. Departm	ment of Energy			
Post Office Box 98518	Las Vegas City or Town			
	, hereby make application for permission to appropriate the public			
waters of the State of Nevada, as hereinafter s	stated. (If applicant is a corporation, give date and place of incorporation; if a			
copartnership or association, give names of	members.)			
1. The source of the proposed appropriatio	n is: Name of stream, lake, spring, underground or other source			
	······································			
2. The amount of water applied for is	One second-foot equals 448.83 gals. per min.			
	f acre-feet			
3. The water to be used for Other	use (See No. 12) Industrial and Domestic Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.			
4. If use is for:	irrigation, power, maning, manufacturing, domestic, or other use. Must minit to one use.			
	pe irrigated			
	of animals to be watered			
(c) Other use (describe fully under No.	12. "Remarks" See No. 12.			
(d) Power:				
(1) Horsepower developed				
(2) Point of return of water to stream	m			
5. The water is to be diverted from its sour	rce at the following point NE 4 of the SW SEC. 19, T.13S. Describe as being within a 40-acre subdivision of public			
R.50E (MDB&M) at a distance	ce of 13,298 feet from the SW corner of SEC. 31,			
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated. T.13S. R.50E. at bearing of S.08 ^O 46' 06" W. (See attached map). Protracted.				
	, 19-23, 26-30, and 31-35, T.12S., R.50E.; Sections			
	rescribe by legal subdivision. If on unsurveyed land, it should be so stated.			
7-9, 16-21, and 28-33, T.1	13S., R.50E.; Sections 7-36, T.13S., R.49E.; Sections			
10-15, 22-27, and 34-36, T.13S., R.48E.; Sections 4-9, T.14S., R.50E.; Sections				
	.14S., R.49E.; Sections 1-3, 10-15, 22-27, and 36, 3-6, T.15S, R.49E.; Section 1, T15S., R.48E.			
7. Use will begin about 01/01 Month and Day	and end about 12/31, of each year.			
8. Description of proposed works. (Under	the provisions of NRS 535.010 you may be required to submit plans and			
specifications of your diversion or storage	ge works.) See attached sheet, No. 8. State manner in which water is to be diverted, i.e. diversion structure, ditches and			
flumes, drilled well with pump and motor, etc.				

9.	Estimated cost of works Existing = 540,000; Planded = \$7	90,000	
10.	Estimated time required to construct works. Five months. See No. If well completed.	8 for details.	
	If well completed, describe works.		
11.	Estimated time required to complete the application of water to beneficial use	5 years.	
	Remarks: For use other than irrigation or stock watering, state number and type consumptive use:	e of units to be served or annua	
	This application is made in support of the site char	acterization program fo	
	Yucca Mountain, Nevada. See the attached sheet (No.	12) for water use	
	estimates during the first 7 years of the site chara 12a). Included on that attachment (No. 12b) is a bruses to which the water will be applied.

(PERMIT TERMS CONTINUED)

This permit is issued subject to: 1) Compliance with the monitoring program titled "Monitoring Program for the Groundwater Levels and Spring Flows in the Yucca Mountain Region of Southern Nevada and California, February 1991, United States Department of Energy, Yucca Mountain Project Office." 2) Data collected from said monitoring program shall be submitted to the State Engineer's office on a quartley basis, within 15 days after the end of each calendar quarter. 3) The terms and conditions set forth in State Engineer's Ruling No. 3870, dated March 2, 1992.

The amount of water pumped from this well shall be taken on a monthly basis and the pumpage submitted to the State Engineer's office on a quarterly basis with 15 days after the end of each calendar quarter.

EXPIRED

DATE APR 0 9 2002

No. 3 Well J-13 is an existing well on the NTS. The well is equipped with a pumping station (See specifications of well and pumping station on the drawing that accompanies this application). A 6.2-mile-long, 6-inch-diameter, poly-vinyl chloride pipe buried 2 feet below grade extends from the well to the border of the NTS.

A booster pumping station will be installed about halfway (based on elevation) between the well and the place of use (See specifications of pumping station on the drawing that accompanies this application). The existing pipeline will be extended approximately 4,100 feet to the place of use where it will be pumped into a 150,000-gallon water tank located in the NE 1/4, SEC. 36, T.12S, R.49E, and the water will be used throughout this same area.

12a. ESTIMATED ANNUAL WATER CONSUMPTION

		*
YEAR 1	-	2.4 miil. gal.
YEAR 2	-	30.9 mill. gal.
YEAR 3	-	23.7 mill. gal.
YEAR 4		22.0 mill. gal.
YEAR 5	- .	20.1 mill. gal.
YEAR 6	-	17.0 mill, gal.
YEAR 7	-	15.0 mill. gal.
